##### **ANNUAL KDHE INSPECTION.**

K.S.A. 65-512 requires that all licensed facilities are to be inspected at least once every twelve months. Your local child care facility surveyor will make an ANNOUNCED inspection for a new application and an UNANNOUNCED inspection for all other inspection types. All inspections survey the entire home and surrounding outdoor area. Inspections will not necessarily occur at the time of your annual renewal date. KDHE provides dates for inspection to the local child care facility surveyor. Inspection dates may change from time to time. If you have questions or comments about your inspection, please contact the Kansas Department of Health and Environment.

The Provider Self-Evaluation Checklist does not need to be returned to the local child care facility surveyor or the Kansas Department of Health and Environment. The checklist is for your use to help you determine your own compliance with child care requirements. The checklist does not contain all laws or regulations but it may be a helpful way for you to check your compliance throughout the year. You are not required to complete this form. You are not required to keep the form on file. This checklist is for your use only.
